

GREEN GATE

GREEN GATE

Importanti novità arrivano in casa Kronos: entrano in scena due nuove serie in cui la pietra di recupero fa da protagonista, trasmettendo la sua purezza, la sua forza e la sua storia.

La prima, **Carrière Du Kronos**, rappresenta il carattere fortemente innovatore dell'azienda, attraverso la combinazione di pietra e cemento, sintesi perfetta fra il filone "green" e il trend metropolitano dell'abitare moderno. Ideata per rivedere in ottica moderna il mondo della progettazione, offre una gamma completa, guidata da un'estetica perfettamente armonica. Anche la forza di **Rocks** si confronta con il suggestivo materiale naturale, in una serie capace di ricreare quell'atmosfera di stabilità e fermezza tipica dell'ambiente roccioso, rappresentando la materia contrapposta al nulla, suscitando una profonda esperienza introspettiva. Un rifugio per ripararsi dai frenetici ritmi del vivere quotidiano, con antiche radici nel passato.

Exciting news at Kronos' house: two new collections are coming on stage, in which the recovery stone has the leading role, carrying its strength, purity and history.

The first, **Carrière du Kronos**, represents the innovative character of the company, through the combination of stone and concrete, to achieve the perfect synthesis between the green philosophy and the metropolitan trend of modern living. Carrière du Kronos offers a complete range, guided by a perfectly harmonious aesthetics, to review the world of design in a modern point of view.

Rock's strength is matched with the dramatic nature of material, capable to recreate an atmosphere of stability and firmness typical of rocky environment, representing the matter as opposed to nothing, arousing deep introspective experience. A refuge to escape from chaotic life, with ancient roots in the past.
